

For Injury Prevention...

The *i-Mover*

The "intelligent" way to move everything....

- Ergonomically designed to reduce employee injury due to physical strain
- Quickly and easily move heavy loads throughout your facility
- **i-Mover** converts easily to push, pull and maneuver hospital carts and other heavy medical equipment through tight quarters
- Minimizes the number of employees needed to move heavy items, increasing employee productivity
- Battery-powered for 24 hours* (load dependant) and features a maintenance-free drive system
- Stores in a 24" x 21" space

When only the exceptional is good enough....

Contract # 1862M

**Based on the equivalent of 2 hours of continuous use over 3, 8-hour shifts*
