Virtual Imaging	Information	1936M	DR Radiology Systems	09/01/2008	Through Procurement Managers, Virtual Imaging acquires a variety of diagnostic imaging systems to support the growing re-manufacturing equipment business. Most all of the imaging systems that Virtual Imaging acquires are direct purchases from facilities. They remanufacture or refurbish these systems at operations centers in Nashville, TN and Deerfield Beach, FL. Virtual Imaging can also remove older imaging equipment that cannot be remanufactured and can do so at little or no cost to the facility, depending on market conditions, so that they can continue to support their parts inventory business.
